

PILARIX BALM

PILARIX BALM is an intensive moisturizing product with an unique formula, that combines strong moisturizing and regenerating effects. Thanks to the high content of urea and moisturizing complex it prevents dry skin, and thanks to the ceramides, cholesterol and phytosphingosine, it rebuilds lipid structures in the skin, providing it with firmness and elasticity.

INSTRUCTIONS OF USE

DAILY CARE FOR:

- ✓ CHRONICALLY DRY SKIN,
- ✓ DEHYDRATED SKIN,
- ✓ SKIN DEMANDING IMMEDIATE REGENERATION,
- ✓ SKIN WHICH HAS LOST ITS FLEXIBILITY AND ELASTICITY

AN UNIQUE FORMULA

- ✓ **CERAMIDES OF 1, 3, 6II TYPES** – prevent excessive water loss and enhance its absorption at the same time speeding up its regeneration
- ✓ **CHOLESTEROL** - prevent skin from dehydration
- ✓ **PHYTOSPHINGOSINE** - participates in the process of differentiation of epidermal cells and effectively inhibit the growth of bacteria and yeasts.
- ✓ **UREA** – provides skin with an optimal moisturizing and softening
- ✓ **MACADAMIA OIL** - provides skin with an optimal nutrition, lubrication, softening and moisturizing.
- ✓ **MOISTURIZING COMPLEX** – carefully selected ingredients of the complex imitate the action of the Natural Moisturizing Factor, that is present in the skin and provides it with a proper hydration.

HOW TO USE

Balm should be applicated once a day to a clean and dry skin of whole body, or more often if necessary.

SIDE EFFECTS

Pruritus, erythema, swelling of the skin or subcutaneous tissue. In the case of occurrence of any of the symptoms, one should immediately stop using the product and contact doctor.
