

# VERSIC SET

## emulsion & shampoo

THIS SPECIAL SET INCLUDES TWO PRODUCTS WITH ANTIDANDRUFF AND ANTIFUNGAL EFFECTS. SIMULTANEOUS USE OF VERSIC EMULSION (CONTAINING ANTIFUNGAL AND EXFOLIATING INGREDIENTS) AND SHAMPOO CAPITIS DUO (WITH ANTIDANDRUFF AND ANTIFUNGAL EFFECTS) ENSURES COMPLEX SOLUTION FOR SKIN AFFECTED BY PITYRIASIS VERSICOLOR.

Information about the product. Read all of this leaflet carefully before the use.

**VERSIC EMULSION** INTENDED FOR CARE SKIN WITH PITYRIASIS VERSICOLOR SYMPTOMS WITHIN THE CUTIS GLABRAE AREA (MOSTLY THE TORSO).

**ANTIDANDRUFF SHAMPOO CAPITIS DUO** PROTECTS FROM FORMATION OF LATENT INFECTION IN THE SCALP.

#### INDICATIONS:

- Pityriasis versicolor,
- Superficial skin mycoses requiring simultaneous superficial exfoliation.

#### VERSIC EMULSION:

**PIROKTON OLAMINE (0,50%)** – mixture of two ingredients, has anti-inflammatory properties and eliminates microflora within dandruff skin changes. It inhibits growth of fungus responsible for the symptoms of dandruff - pityrosporum ovale (malassezia furfur).

**LACTIC ACID (5%)** – belongs to the group of alpha-hydroxy acids (aha). Occurs naturally in human body, is non-toxic and completely safe. Lactic acid works gently, does not irritate the skin, is safe to use and very effective at the same time. It has exfoliating properties, causing weakening of the corneocytes' adhesion, which results in removal of keratinocytes.

#### CAPITIS DUO ANTIDANDRUFF AND ANTIFUNGAL SHAMPOO:

**PIROKTON OLAMINE (1,0%)** – mixture of two ingredients, has anti-inflammatory properties and eliminates microflora within dandruff skin changes. It inhibits growth of fungus responsible for symptoms of dandruff - pityrosporum ovale (malassezia furfur). It normalises and restores balance of the epidermis microflora, preventing recurrence of dandruff.

**SELENIUM SUPLHIDE (1,0%)** – It prevents propagation of pityrosporum ovale, inhibits cell division of epidermal

cells and hair follicles, thereby inhibiting excessive exfoliation, redness and itching of skin.

#### DIRECTIONS:

Use the Versic emulsion twice a day (morning and evening) for 7-10 days. In a case of pityriasis versicolor occurrence it is recommended to use simultaneously capitis duo antidandruff shampoo to wash head (daily for 7 - 10 days) and to repeat the application of Versic + Capitis Duo for 4 following days after one month and after two months.

This treatment reduces chance for pityriasis versicolor recurrence. If pityriasis versicolor was present in a form of bright spots on the skin, this symptom will not disappear during the treatment. Bright spots disappear during natural tanning process after the treatment. During the application of the preparation and for the next 5 days, one should not be exposed to uv rays (sunlight, solarium). Versic emulsion should not be washed off. Leave the emulsion on skin to absorb.

#### SIDE EFFECTS:

Hypersensitivity to shampoo or emulsion's ingredients, pregnancy, lactation, age under 12 years of age. Do not use emulsion on damaged skin, mucous membranes, urogenital areas, eyes and skin around the eyes.

#### RECOMMENDATIONS AND PRECAUTIONS:

For external use only. If swallowed, immediately contact a doctor. Keep out of the reach of children. Do not use after the expiry date stated on the package.

Store in a dry place at room temperature (15°C - 25°C) in a tightly closed container.

#### AVAILABLE PACKAGING:

2 x 110ml bottle.

Once opened, use within 3 months.
