

CAPITIS DUO

anti-dandruff and anti fungal shampoo

(ketoconazole, selenium sulfide)

CAPITIS DUO IS AN ANTI-DANDRUFF AND ANTI FUNGAL SHAMPOO. THANKS TO THE TWO SUBSTANCES HAVING ANTI FUNGAL EFFECT (KETOCONAZOLE AND SELENIUM SUL-FIDE) ONE HAS EXTENDED THE RANGE OF THE EFFECTIVENESS OF THE SHAMPOO.

Information about the product
Read all of this leaflet carefully before the use.

INDICATIONS:

Scalp dandruff, seborrheic dermatitis of the scalp, tinea versicolor - supportively.

CONTRAINDICATIONS:

Pregnancy, breastfeeding period. Age under 12 years of age. Do not apply on damaged or irritated skin, membranes mucous and around the urogenital tract. Do not use on patients with hepatic and renal function. Do not use on patients with symptoms of allergy or hypersensitivity to any of the ingredi-ents.

SIDE EFFECTS:

Pruritus, erythema, swelling of the skin and subcutaneous tissue. If one experiences any of the symptoms, the product should be washed off with water with soap and one should contact a doctor.

APPLICATION:

Shampoo, in the case of dandruff or seborrheic dermatitis of the scalp should be applied daily for 7-10 days and then 2 x week for 3 weeks. In the case of pityriasis versicolor, in order to eliminate infection within the scalp, shampoo should be used for 7-10 days fol-lowed by four consecutive days of the month within the period of two months. Apply on a wet hair, spread evenly over the entire surface of the scalp. Leave on the skin for 5 minutes and rinse with water.

ADDITIONAL RECOMMENDATIONS AND PRECAUTIONS:

For external use only. If getting shampoo into eyes rinse it with plenty of cold water and consult a doctor. In a case of accidental ingestion, immediately contact a doctor. Do not use the shampoo during 4 days before and 4 days after colouring hair, oxidation or perm-ing.

Keep out of the reach of children.

Do not use after the expiry date stated on the package.
Store in a dry and dark place at room temperature, i.e. From 15°C to 25°C.

The product dermatologically tested. Received a positive assessment of the operational effectiveness on the basis of the research conducted at the Institute of Medical Cosmet-ics, Swietokrzyska street 33a in Warsaw.

VERSIC

antifungal-exfoliating emulsion

(ketoconazole, lactic acid)

VERSIC DUE TO THE PRESENCE OF KETOCONAZOLE AND LACTIC ACID HAS ANTI FUNGAL AND EXFOLIATING EFFECTS. SIMULTANEOUS APPLICATION OF A SUBSTANCE THAT INHIBITS THE DEVELOPMENT OF FUNGAL INFECTIONS WITH THE COMPONENT CAUSING SUPERFICIAL EXFOLIATION IMPROVES THE SPEED AND EFFICIENCY OF THE PRODUCT. MODERN FORMULATION OF THE EMULSION ALLOWS TO USE THE PRODUCT WITH A HIGH COMFORT OF USE.

Information about the product
Read all of this leaflet carefully before the use.

INDICATIONS:

Tinea versicolor, superficial mycoses, requiring simultaneous superficial exfoliation.

CONTRAINDICATIONS:

Pregnancy, breastfeeding period. Age under 12 years of age. Do not apply on broken or irritated skin, membranes mucous and around the urogenital tract. Do not use on patients with hepatic and renal function. Do not use on patients with symptoms of allergy or hypersensitivity to any of the ingredients.

SIDE EFFECTS:

Pruritus, erythema, swelling of the skin and subcutaneous tissue. If one experiences any of the symptoms, the product should be washed off with water with soap and one should contact a doctor.

APPLICATION:

The emulsion should be applied two times a day (mornings and evenings) for 7-10 days. Where indicated pityriasis versicolor one recommends the simultaneous use of ketoconazole-containing shampoo to wash the head (every day for 7 to 10 days) and repeat applications (VERSIC + CAPITIS DUO) for 4 consecutive days a month and two months. This way of application reduces the chance for recurrence of the symptoms of dandruff versicolor. If tinea versicolor appeared as bright spots on the skin, the symptom will not

disappear during the treatment. The bright spots disappear during the natural process of skin tanning after the use of the product. During the application of the product and for the next five days do not expose the skin to UV rays (sun, solarium). Versic Emulsions should not be washed, but naturally absorb by the scalp.

Warning! After opening the package, the product may gradually change its colour to darker (exposure to light and air). Colour change has no effect on the utility value of the product.

ADDITIONAL RECOMMENDATIONS AND PRECAUTIONS:

For external use only. If accidentally swallowed, immediately contact a doctor. Keep out of the reach of children. After using the emulsion the package should be closed. Store in a dry and dark place at room temperature, i.e. From 15°C to 25°C. Do not use after the expiry date stated on the package.

The product dermatologically tested. Received a positive assessment of the operational effectiveness on the basis of the research conducted at the Institute of Medical Cosmetics, Swietokrzyska street 33a in Warsaw.

AVAILABLE PACKAGING:

VERSIC emulsion bottle containing 110 ml.
