

VERSIC

Emulsion

VERSIC THANKS TO THE PRESENCE OF PIROKTON OLAMINE AND LACTIC ACID IN THE COMPOSITION HAS ANTIFUNGAL AND EXFOLIATING EFFECTS. SIMULTANEOUS USE OF A SUBSTANCE INHIBITING DEVELOPMENT OF A FUNGAL INFECTION WITH INGREDIENT CAUSING SUPERFICIAL EXFOLIATION INCREASES SPEED AND EFFECTIVENESS OF THE PREPARATION. MODERN FORMULA OF THE EMULSION ALLOWS IT TO BE USED WITH A HIGH COMFORT.

Information about the product. Read all of this leaflet carefully before the use.

INDICATIONS FOR USE:

- pityriasis versicolor
- superficial skin mycoses requiring simultaneous superficial exfoliation

UNIQUE FORMULA:

PIROKTON OLAMINE (0,50%) – mixture of two ingredients, has anti-inflammatory properties and eliminates microflora within dandruff skin changes. It inhibits growth of fungus responsible for symptoms of dandruff - *PITYROSPORUM OVALE (MALASSEZIA FURFUR)*. It normalises and restores balance of the epidermis microflora, preventing recurrence of dandruff.

LACTIC ACID (5%) – belongs to the group of alpha-hydroxyl acids (aha). Occurs naturally in human body, is non-toxic and completely safe. Lactic acid works gently, does not irritate skin, is safe to use and very effective at the same time. It has exfoliating properties, causing weakening of the corneocytes' adhesion, which results in removal of keratinocytes.

DIRECTIONS:

Use the versic emulsion twice a day (morning and evening) for 7-10 days. In a case of pityriasis versicolor occurrence it is recommended to use simultaneously CAPITIS DUO dandruff shampoo to wash head (daily for 7 - 10 days) and to repeat the application of VERSIC + CAPITIS DUO for 4 following days after one month and after two months.

This treatment reduces chance for recurrence of pityriasis versicolor. If pityriasis versicolor was present in a form of bright spots on the skin, this symptom will not disappear during the treatment. Bright spots disappear during natural tanning process after the treatment. During the application of the preparation and for the next 5 days, one should not be exposed to UV rays (sunlight, solarium). VERSIC emulsion should not be washed off. Leave the emulsion on the skin to absorb.

SIDE EFFECTS:

Itching, erythema, edema of skin or hypodermis oedema. If any of the symptoms occur, immediately discontinue use and contact a doctor.

CONTRAINDICATIONS:

Hypersensitivity to shampoo ingredients, pregnancy, lactation, age under 12 years of age. Do not use shampoo on damaged skin, mucous membranes, urogenital areas, eyes and skin around the eyes.

RECOMMENDATIONS AND PRECAUTIONS:

For external use only. If swallowed, immediately contact a doctor. Keep out of the reach of children. Do not use after the expiry date stated on the package. Store in a dry place at room temperature (15°C - 25°C) in a tightly closed container.

AVAILABLE PACKAGING:

110 ml bottle.
Once opened, use within 3 months.
